THE SECURE, MOBILE, ON-SITE FITTINGS STORAGE SOLUTION...

Stop those expensive fittings going walkies - whilst keeping them neatly organised and easily accessible for use.

With the cost of copper fittings and electrical cable soaring, Armorgard have developed these cabinets to safely secure all of the contractors' components and tools in one location. With adjustable shelves and lift out bins, they are a must for every M&E contractor.

- Robust Steel plate construction
- 3 x Reinforced adjustable shelves (2 supplied with FC2)
- Heavy duty industrial casters fitted as standard
- Tough lift-out plastic fittings bins supplied
- 5 lever deadlocks fitted - serial numbered for replacement keys
- 2 sizes available

Sizes & variants available:

ARMORGARD FITTINGS CABINET - Mobile On-Site Fittings Storage
