

Award winning produce trays

Award-winning Maxinest® is the UK's leading, largest and most diverse range of RTP (Returnable Transit Packaging) for food and grocery distribution.

Features & Benefits

Quality assured

- From field or food manufacturer to retail point-of-sale
 Maxinest® protects, maintains quality and promotes
 hygiene for fresh and frozen fruit, vegetables,
 prepackaged meats, fish, prepared meals and many
 other grocery items.
- Original and industry standard LINPAC Allibert design.

Strong and secure

 Maxinest® trays stack ten high carrying a 16 Kg unit load with a temperature range from -30°C to +85°C.

Cost and space efficient

- Empty trays nest by up to 76% of their original height saving valuable space on return logistics.
- Maxinest® is the only produce tray to offer multi-height options, enabling the same tray to be used for a number of different applications.

Versatile

- Maxinest® fits standard distribution and display equipment and works seamlessly with the latest filling, weighing and handling technology.
- Ownership, contents and destination can be clearly identified through labelling, printing and RFID.
- New Maxinest+ meets the growing trend in more sophisticated and efficient supply chains. Maxinest+ trays feature locations for automated handling and a reinforced base for quiet, smooth operation on all conveyor types.

No other name carries so much weight
