

STORMOR® EURO Shelving - Complete Bay Kits

DELIVERY

Within 5 Days Red price on white

1800 & 2100mm High STARTER & EXTENSION Bays £ each

Euro-Shelving is easy to assemble. The modern colour scheme, Stormor Grey uprights and Stormor Grey shelves, make it ideal for industrial & commercial applications.

Kits are available with three bay depths 300mm, 400mm and 450mm. Bay widths are 968mm clear, 1013mm centre of uprights, and 1083mm overall including footplate overhang. All bays have 6 shelf levels.

Kits include feet, shelf clips, upright caps and assembly instructions.

Shelving exceeding a 4 to 1 height to depth ratio must be floor fixed. Refer to the Technical Department for further information.

REAR BRACING/REAR CLADDING FITTING FREQUENCY

All runs of shelving require rear bracing. This may take the form of a rear disc clamp cross-brace assembly OR rear cladding, and must be fitted at a frequency of at least 1 BAY IN 12.

Open all round and rear open starter bays include a disc clamp “X” bracing assembly, but further bracing assemblies MUST be purchased if more than 11 extension bays are required.

For the bracing patterns in frame heights of 2400mm and over, technical advice should be sought.
