

Rivet Racking Systems

Offers incredible value for money, whilst offering amazing strength and rigidity.

The system is simple to build with all parts being tapped together by a rubber mallet. All components are joined via the heavy duty rivet and key hole slot which offers a simple and effective way to assemble the racking.

There are no nuts and bolts and the bays need no bracing therefore offering uninterrupted access on all four sides. Bays are available in various heights up to 3660mm high.

With the average time to assemble a bay being just 5 minutes, you will be amazed at how easy it is to create large installations in no time at all. All bays are ready for immediate dispatch and will be delivered in 5 working days.

- ★ **Best Selling system**
Offers the widest choice of sizes, all at great value
- ★ **Easy to build and re-configure**
Simply tap together with a rubber mallet
- ★ **Strong and sturdy**
With shelf capacities up to 600kgs, it easily copes with heavy goods
- ★ **No nuts, bolts or screws**
Simple and quick to erect, with no fuss
- ★ **Strong epoxy paint finish**
Designed to give years of service and withstand heavy use
- ★ **Will suit any application**
Versatile and expandable, suits a wide range of industries
- ★ **Guaranteed delivery in 5 days**
There when you need it, without fail

Heavy & Medium Rivet

Incredible value for money, amazing strength and rigidity. All bays come with 4 levels which have a central deck support on bays 1220mm to 2135mm wide, whilst 2440mm wide bays have two per level, providing that secret strength to all our Rivet bays.

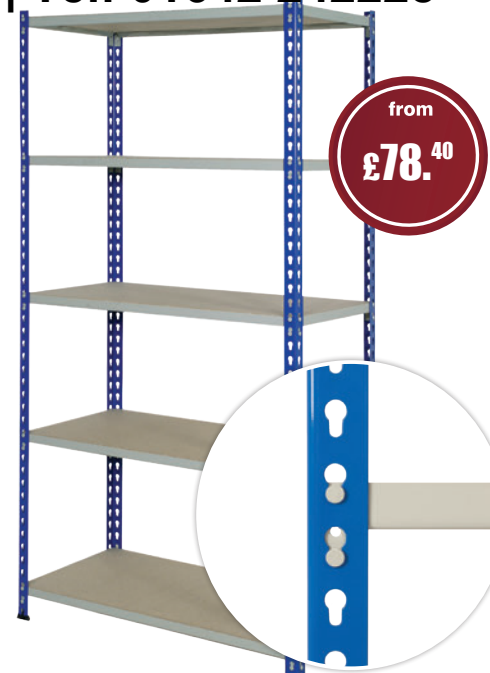

Height	Levels	Shelf Load	Bay Load	Delivery
1830+ mm	4+ Shelves	~600 kg	~2800 kg	5 days

Z Rivet

The "Z" profile rivet system offers a robust effective storage solution for any application. The "Z" profile beam offers incredible strength with a shelf height of only 54mm. Bays are available in various heights up to 3660mm high, three widths and five shelf depths.

Height	Levels	Shelf Load	Bay Load	Delivery
1830+ mm	5+ Shelves	~300 kg	~2800 kg	5 days

J Rivet

Our J rivet system has unbeatable strength at an incredible price. It is also manufactured to the highest quality. The shallow J beam profile (only 30mm thick) gives increased storage capacity whilst maintaining excellent strength.

Height	Levels	Shelf Load	Bay Load	Delivery
1830+ mm	5+ Shelves	~150 kg	~2800 kg	5 days

RIVET RACKING GUIDE

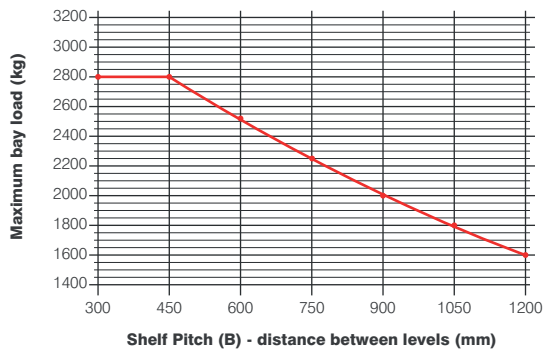

Calculating Exact Dimensions of the Bay & Run of Bays

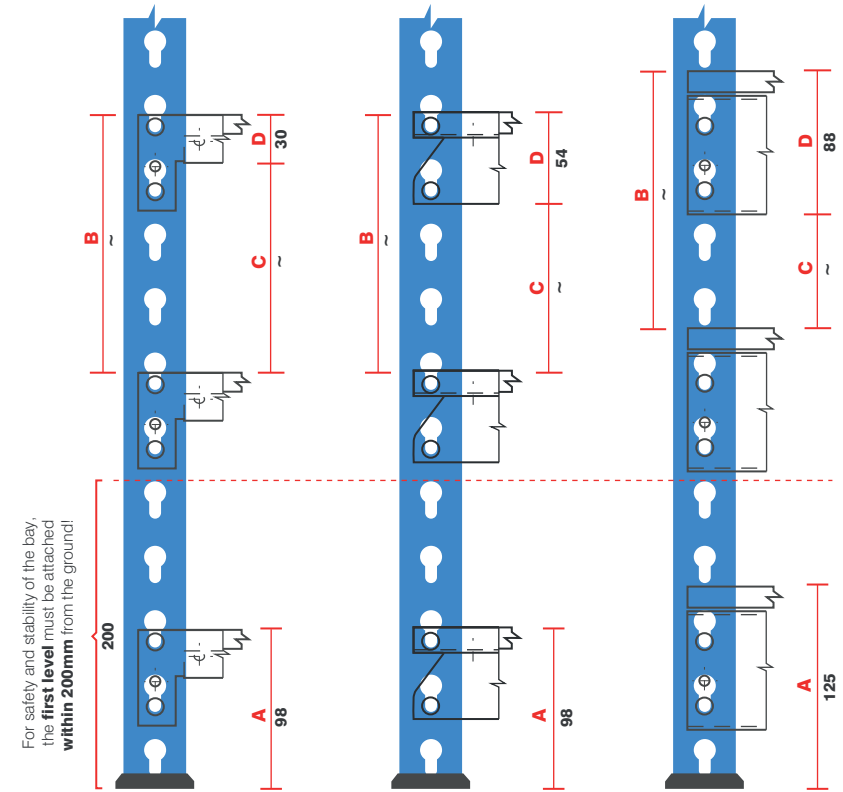

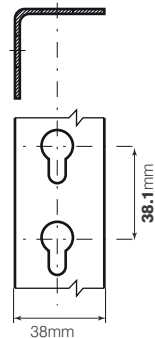

- H** Nominal Height*
- W** Nominal Width*
- D** Nominal Depth*
- CE** Clear Entry between uprights

* Dimensions used in price tables

Rivet Racking Bay Loading (kgs)

Rivet Upright

	J Rivet	Z Rivet	Heavy Rivet
A	98mm	98mm	125mm
B	see below ⓘ how to calculate exact Shelf Pitch		
C	B minus D	B minus D	B minus D
D	30mm	54mm	88mm

- A** Minimum First Shelf Level Height
- B** Shelf Pitch - Distance between levels
- C** Clear Entry - Useable space between shelf levels
- D** Shelf Thickness - Beam and chipboard

ⓘ How can you calculate exact Shelf Pitch (B)

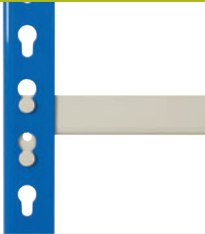

Height of item stored + Shelf Thickness divided by **38.1**
= Round decimal up to the next whole number and multiply by **38.1**

e.g. 320mm (Height of stored items) + 88mm (Heavy Rivet) / 38.1
= 10.7 rounded to 11 x 38.1 = 419.1mm Shelf Pitch

ⓘ We have multiple solutions to different storage problems, if you are unsure what's best for you, please contact us.

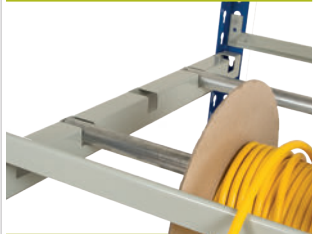

Rivet Racking accessories and components

1. J Rivet Beam

Decking is flush with the top of the beam

2. Notched Side Beam

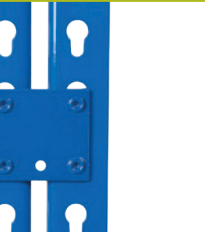

Used with tubes to create rails

3. Rivet Upright

Uprights can be up to 3660mm high

4. Tie Plate

Heavy Duty Rivet Racking

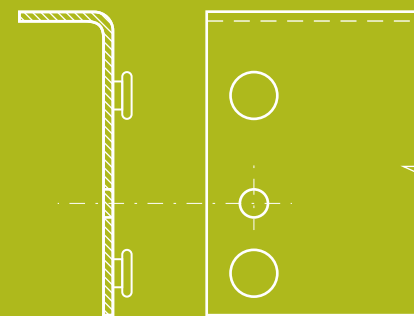

Heavy duty industrial racking that meets the demands of any warehouse, storeroom and workshop. Quick deliveries and ease of assembly ensures your storage problems will be solved in no time at all.

Rivet Racking offers incredible value for money with amazing strength and rigidity. The quality of the materials used and robust construction ensures it will meet the rigors of the toughest workplace.

The vast range of bay sizes allows for a solution to meet your storage needs and the available space. Flexibility of wide open bays and large shelf capacities enable products of varying weights and dimensions to be easily stored within a single system.

Medium Duty Rivet

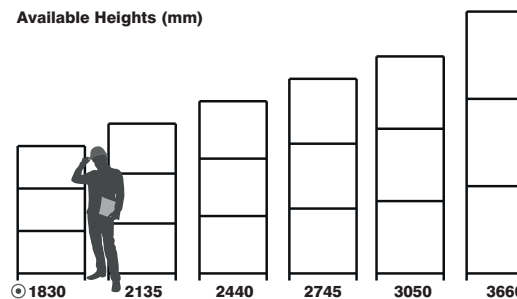

Our Medium Rivet uses a lighter 1830mm “L” shape face beam that offers loads up to 300kgs. This provides a more cost effective solution for storing long or bulky items.

The bays are available in depths from 305mm to 1220mm deep and any of the standard upright heights from the Heavy duty range.

The uprights are blue and beams are light grey and each level comes with a central deck support and 18mm chipboard decking.

Z Rivet Compartment Bays

Create compartments to store awkward items

Z Rivet compartment bays provide an effective way to store loose or awkward items. The bays provide multiple locations for separating individual products which enable for faster picking.

The system uses our standard Z Rivet shelving components with bespoke shelves, dividers and cladding. This creates a cost effective compartment system with strength and ease of installation.

We have designed a range of standard bays, which are all stocked and delivered within 5 days. As well as standard bays we can offer bespoke designs so please call to discuss your requirements.

Z Rivet Racking

Our "Z" profile rivet system offers a robust and effective storage solution for any application.

The "Z" profile beam offers incredible strength with a shelf height of only 54mm. The system requires only a rubber mallet to build and just taps together. There are no nuts and bolts and the bays need no bracing therefore offering **uninterrupted access on all four sides**.

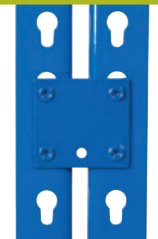

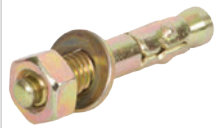

Bays are available in various heights up to 3660 high, three widths to 1525mm and five shelf depths to 915mm.

J Rivet

Low cost shelving system

Our J rivet system has unbeatable strength at an incredible price. It is also manufactured to the high quality you have come to expect from one of the UK's leading suppliers.

The shallow J beam profile gives increased storage capacity whilst maintaining excellent strength. It is also compatible with the Z and Heavy rivet systems to increase its flexibility within any installation. The bays are available in six heights, two widths and three depths making space planning of any area simple and effective.

The system is simple to erect yet has all the strength you are likely to need. The bays just tap together with a rubber mallet so you can organize your storage in a fraction of the time it can take with more traditional systems.

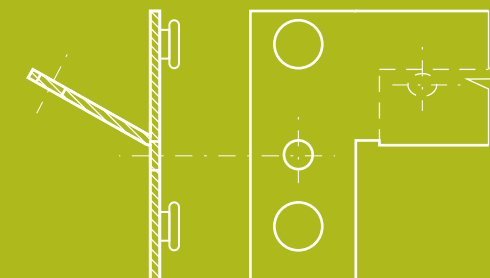

With the average time to assemble a bay being just 5 minutes, you will be amazed at how easy it is to create large installations in no time.

All bays are ready for immediate despatch and will be delivered in 5 working days.

Run of J Rivet bays connected with Tie Plates

Rubber Mallet	Tie Plate	Wall Bracket	Metal Feet	Floor Fixing
MALLET £3.50	RR8/SET4 Set of 4 £3.60	RR5/WBKT £1.00	RR5/SET4 Set of 4 £4.00	FFM8 M8x50 £0.90

J Rivet beam profile

i J Rivet increases storage density with its 30mm slim beam profile.

Keep cable reels organised

A new solution for organizing and dispensing cable or items stored in reels.

The simple side beam that supports a 25mm diameter tube which can hold a variety of drums or reels. The beam is notched so the tubes can be located in 5 different positions. Each level is then fitted with a face beam to enable the material to be offered to the user and conveniently cut to length.

The units can come as either static racks or as a low level mobile trolley. The bays come either 915 or 1220mm wide and 610mm deep.

Best for Retail, Storeroom or Workshop | up to 70kg UDL/rail

RIVET CABLE REEL RACKS

Rivet Garment Racks

The perfect storage solution for any bulk garment hanging requirement. All constructed from Rivet racking components for simplicity and ease of assembly.

The 25mm zinc coated tube slots into place on the notched beams and can be located in five different positions.

This can provide a single rail centrally positioned or two rails located on each face of the rack providing twice the capacity. Each storage level can be adjusted every 38mm easily with just a rubber mallet.

Archive Storage Solutions

With the continuing demand to store paper for all businesses, the need for a high density solution will be easily solved with our Heavy Duty Rivet Racking system.

Rivet Racking will provide a cost effective and flexible way to solve any archive storage problem. This type of storage shelving is simple to adapt with add-on bays or extra levels. This way you can create a simple solution that utilises the space available.

By using standard shelving units that come complete with our heavy duty archive boxes, you have a ready made solution. This will ensure documents are well organised and easily accessible, allowing the user to locate and retrieve files quickly.

Need More Boxes?

Our Heavy Duty Archive box and lid are designed to hold 20kgs of paper. The robust construction means documents will be securely and safely stored. The boxes come flat packed and are easy to assemble. Boxes come with handle holes for easy transportation and the internal dimensions are 260H x 330W x 390D.
